INTENDED USE

For use with discrete analyser applications with the Trinity Biotech G-6-PDH quantitative kit (P/N: 345-B).

REAGENT

Red Cell Lysing Reagent, Catalogue No. R1129, 4 x 25 ml

Solution contains sodium azide, 0.1%, as preservative.

PREPARATION

To lyse red cells, add 1 part whole blood to 9 parts lysing reagent.
Discard if turbidity is evident.

STORAGE AND STABILITY

Store Red Cell Lysing reagent refrigerated (2-8°C). Vial labels bear expiration date.

PRECAUTIONS

The reagents are for "in vitro diagnostic use". Normal precautions exercised in handling laboratory reagents should be followed. Dispose of waste observing all local, state and federal laws.
For professional use only.
In case of damage, do not use.
Refer to Safety Data Sheet for updated risk, hazard and safety information.
